## Amazon Echo Show Can Help You Keep Track of Your Shopping

01/18/2017 Amazon Echo is an Amazon Echo, which is a personal assistant. With the help of Echo, you can interact with customers via voice, as well as receive information through text, speech, and even Alexa. It is also possible to control other Alexa-enabled

---

devices, and it can be connected to the web. However, Echo is not a replacement of the smartphone, so you still need a smartphone or tablet to keep track of your shopping. And the intelligent assistant Alexa doesn't always function properly. It is because it is a new device that's not yet familiar to many users. But Amazon Echo Show is a display device, and it acts like a third party to personal assistant Alexa. You can use it as a display, controlling other smart device via Amazon Alexa, and

---

interacting with customers. Let's check out some of its features:

**Voice-Enabled Home Control** The Amazon Echo Show can turn on and off lights, and the heating of the home, as well as play music, and adjust the volume of the devices. The Amazon Echo Show can also control Echo devices. It can control devices connected to Alexa such as lights, switches, thermostats, and other devices, as well as connect to other services.

**Voice** The Amazon Echo Show is a display device, but can also handle

---

voice, even though the Amazon Echo is a personal assistant. The display is 5.2 inches and has 4k resolution, as well as 64GB of internal memory and 5 hours of video memory. A camera on the top of the display can record up to 6 hours of video. The microphone for voice can support English, as well as 3da54e8ca3
