partitions to be the size of the free disk space I currently have two 144.00 GiB and 260.00 GiB and I would like to resize them to be 264.00 GiB. I'm also wondering how to make the C drive primary. I've looked at this answer but I don't know how to properly apply it. I have Ubuntu 18.04 installed. A: One way

would be to use GParted on a LiveCD or LiveUSB. Reboot to the LiveCD or LiveUSB and boot into GParted. Click on Devices, then Disks. Locate your removable drive (C: or whatever), click on it, then press Resize/Move up/down arrow keys to see how much additional space is available on the left side of the drive. Then press "Apply". PS - You'll still have to go into the partition table and delete the two, now useless, partitions.
