While scanning a file or picture in Photo Director or Scanner Pro, if your resolution is too low, you can scan to lower resolutions. Also, you can change the photographic paper and the paper size. For other articles on Photo Director, see the "Miscellaneous articles" sub-menu. You can also directly upload photos into a slideshow in Photo Director. There are three different paper styles: Matte, Glossy, and Glossy with a Black Ink Pass effect. Choose Photo Director, then go to the Actions > Effects menu.

You can then choose any of the effects as shown in the following figure. Choose Photo Director, then go to the Actions > Effects menu. There are some effects which are already installed. These include the default effects. You can use these effects as described below. In the Effects menu, you can choose one or more effects to apply to the picture, as shown in the following figure. Effects "Static" is the default effect. If you use the Static effect, you will not be able to change or remove the effect, unless you have the Photo Director for Windows 98 or later. "Slideshow" is an effect that allows you to select frames from a slideshow. There are different layouts, such as 1 image/frame, 2 images/frames, and 3 images/frames. "Fade" is an effect that allows you to select two frames, and fades them from one to the other. "Pan & Zoom" is an effect that allows you to zoom in on a portion of the image or document. "Dual Image Zoom" is an effect that splits the image into two and allows you to zoom into either half of the image. "Gif" is an effect that allows you to convert a picture into a Gif format. The option is available for both images, and videos. "Pan & Zoom" is an effect that allows you to zoom in on a portion of the image or document. "Dual Image Zoom" is an effect that splits the image into two and allows you to zoom into either

---

half of the image. "Video Pitch" is an effect that allows you to change the size of the video, or change the animation speed. "Rotate" is an effect that allows you to change the angle of the image/video. "Wide" is an effect that allows
